

## Worry-Free Cloud Video Surveillance for Your Business

Make your business more efficient and the world a safer place – all on the only video management platform robust and flexible enough to power the future of video surveillance.

# Eagle Eye Cloud Video Management System

### CAMERA COMPATIBILITY

Use existing cameras or purchase from hundreds of the world's leading camera manufacturers, as Eagle Eye allows for the greatest choice and flexibility of any system on the market.

### TRUE CLOUD

Benefit from easily deployed cloud technology that provides you with infinite scalability, flexibility, accessibility, and reliability.

### CYBER SECURE

Protect your data with a system built by experts in cybersecurity who know how to prevent, detect, and respond to attacks, so you don't have to.

### OPEN PLATFORM

Integrate seamlessly with other mission-critical applications, such as access control, smart sensors, and point-of-sale.

### AI & ANALYTICS

Move beyond monitoring by leveraging data to identify threats; inform responses; and improve business operations, efficiency, and customer service.

# About Eagle Eye Networks

Eagle Eye Networks is the global leader in cloud video surveillance, delivering cyber-secure cloud-based video with artificial intelligence (AI) and analytics. Eagle Eye sells its products through certified dealers and installation partners. Its video surveillance system is built with features to help you not only protect people and property, but also optimize your business operations, improve employee performance, and enhance the customer experience.
